SUMMARY HIGHLIGHTS

1. CURRENT ENROLLMENT - In fall 1973 a total of 150,261 full-time and part-time students were enrolled in North Carolina colleges and universities. Of this total 101,378 students (67.5 percent) were enrolled in public institutions and 48,883 (32.5 percent) in the private institutions.

2. ENROLLMENT TRENDS - The total 1973 college enrollment increased by 1.5 percent over the 1972 figure. The enrollment in the public institutions increased 3.0 percent while the enrollment in the private institutions decreased 1.5 percent. The out-of-state enrollment in The University of North Carolina decreased from 18.8 percent in 1969 to 12.4 percent in 1973.

3. UNDERGRADUATE TRANSFERS - More than 10,000 new undergraduate transfer students were enrolled in North Carolina colleges and universities, public and private, in fall 1973. This represented a 7.9 percent increase from the fall 1972 figure.

4. DEGREES CONFERRED - The number of bachelor's degrees granted by North Carolina colleges and universities during the year ending June 30, 1973, increased from 20,764 to 22,072, a 6.3 percent rise. Similarly, first professional degrees increased from 795 to 892, 12.2 percent; master's degrees increased from 3,892 to 4,197, or 7.8 percent; and doctor's degrees decreased from 763 to 759, or 0.5 percent.

PREFACE

The University of North Carolina herewith presents the seventh annual Statistical Abstract of Higher Education in North Carolina. This abstract covers the breadth of higher education activities in the state from simple counts of enrollment and degrees conferred to a complex analysis of the flow of student transfers among institutions. The wide range of information, collected and published annually, should be useful to planners and decision-makers in the colleges and universities, state agencies, and other concerned organizations and individuals. It is hoped that the information will facilitate the more effective utilization of resources allocated to higher education.

The data for the abstract were assembled by the Institutional Research Division of The University of North Carolina from information supplied by the colleges and universities. I especially wish to acknowledge the work of Mrs. Linda Balfour of The University's staff for her meticulous care in assembling and editing the abstract and to Mrs. Arlene Spivey for her diligence in typing the tables. Acknowledgment is also due to assisting officials at the institutions, public and private, for their continuing and wholehearted cooperation. To all I express my sincere appreciation.

INTRODUCTION

The Statistical Abstract of Higher Education in North Carolina, 1973-74 is compiled to give a detailed statistical view of higher education in North Carolina. This abstract presents both past and current (1973-1974 academic year) information. It is designed to provide legislators, educators, and other interested citizens of North Carolina with a statistical account of higher education in this state. From this abstract the reader can gain some knowledge about who is being educated, where they are being educated, and the resources supporting their education.

The data reported herein were compiled from a package of forms mailed to the individual institutions by The University's Institutional Research Division (in the spring of 1973) for processing during the 1973-1974 academic year. The package contains forms which are designed to satisfy both federal and state data requests (see Appendix A).

The staff of the Institutional Research Division of The University makes every effort to verify the validity and reliability of the data reported by the institutions. The ultimate responsibility for the accuracy of the data, of course, lies with the individual institutions since they originate the reports on which this abstract is based. In certain instances discrepancies may appear to be present, when in reality the data reported may reflect different interpretations of definitions by individual institutions. Wherever possible, these apparent discrepancies are clarified by footnotes.

SECTION I

CURRENT ENROLLMENT

A grand total of 150,261 students were enrolled in north Carolina institutions of higher education in the fall of 1973. The detailed characteristics and numbers of these enrolled students appear in this section.

The percent enrolled in public institutions rose to 67.5 percent (from 66.5 percent in fall 1972), while the percent enrolled in private institutions fell from 33.5 percent to 32.5 percent.

The general characteristics of college enrollment in public and private institutions are illustrated in Figure 2 and Table 1. The detailed data by institution are presented in Tables 2, 3, and 4 while Table 5 gives statistics on full-time equivalent (FTE) enrollment.

The home counties of in-state undergraduate students are presented in Table 6 by type of institution. Table 7, similarly, shows the home states of out-of-state undergraduate students by type of institution. Comparable data for the institutions comprising The University of North Carolina are contained in Tables 8 and 9. In addition, Figure 3 and Table 10 present other information on geographic origin of undergraduate students.

The enrollment of graduate and first professional students is presented by sex and residence in Table 11. Data on graduate students by field of study and sex are shown in Tables 12 and 13. Summer session statistics are shown in Table 14. Data on foreign student enrollment are given in Tables 15, 16, and 17. The information includes the country of origin and the percent of foreign students by institution.

SECTION II

ENROLLMENT TRENDS

Total enrollment in North Carolina colleges and universities increased from 4,698 students in 1900 to 150,261 in 1973. The growth was interrupted during the period 1948 to 1951 when the enrollment dropped from 46,039 to 40,708. Since then the upward growth has been steady, more than tripling the 1951 enrollment. High birth rates, increasing disposable income, and rising aspirations of citizens for higher education have accounted for much of the upsurge in enrollment following World War II. Since 1965, when the annual rate of increase in enrollment reached a peak, the numbers have continued to rise but at a slower rate.

Time series data on total enrollment are presented in Table 18. The number of students by institution as well as the varying rates of increase among institutions are shown in Figure 4 and Table 19.

Trends by in-state and out-of-state residence status are shown in Figure 5 and Tables 20 and 21. Enrollment in graduate and first professional degree programs (Table 22) reflects an increase of 1,107 over fall 1972 (7.6 percent) in public institutions and 189 (4.0 percent) in private institutions. Trends in county origin of in-state undergraduates and foreign student enrollment are given in Tables 23 and 25, respectively. Trends in state origin of out-of-state undergraduate students are shown in Table 24. Virginia, South Carolina, New Jersey, and Florida, in that order, are the leading exporters of students to North Carolina institutions.

SECTION III

UNDERGRADUATE TRANSFERS

This section provides information on undergraduate student transfers from one institution to another within the state and from institutions in other states to North Carolina institutions. Data on student transfers from North Carolina to other states are not included. Information on undergraduate transfers by type of institution for an eight-year period is presented in Table 26.

Figure 6 shows the flow of transfers among and within each of the four types of institutions in the state and from institutions in other states in fall 1973. The actual number of transfers by type of institution and by sex is shown in Table 27. A comparison of the flow of transfers with its counterflow reveals that the community colleges received fewer transfers (2,032) than they sent to other types of institutions (2,442). The public senior institutions received over one-third more transfers from private senior colleges (668) than they sent to private senior colleges (371).

Detailed information on the origin and destination of transfers in the state is presented in Table 28 (from two-year to senior institutions), Table 29 (among senior institutions), Table 30 (from senior to two-year colleges), and Table 31 (among two-year institutions). From the data in these tables, a comparison of the numbers of in-transfers and out-transfers of any given institution can be made. Transfers from other states to various types of North Carolina institutions are shown in Table 32. About one-half of the out-of-state transfers emanate from the neighboring states of Virginia, South Carolina, Florida, Georgia, and Tennessee.

SECTION IV

DEGREES CONFERRED

This section reports on earned degrees conferred by North Carolina senior colleges and universities during the 12-month period ending June 30, 1973. The information pertains only to bachelor's or higher degrees. It does not include degrees or certificates awarded upon completion of less than four years of work beyond high school.

North Carolina public and private senior colleges conferred the largest number of degrees in their history during 1972-73. Figure 7 and Table 33 show that a total of 27,920 degrees (22,072 bachelor's, 892 first professional, 4,197 master's, and 759 doctor's) were conferred by the senior institutions of higher education. This represents an increase of 1,706 degrees (or 6.5 percent) over the number granted during the previous year. The public institutions conferred 65.1 percent of the bachelor's degrees, 47.3 percent of the first professional degrees, 87.5 percent of the master's degrees, and 73.4 percent of the doctor's degrees.

A comparison of public and private institutions in degree production by field of study and by degree type is presented in Table 34. This comparison at the bachelor's level only is depicted in Figure 8.

More detailed data by institution, sex, and field of study are presented in Table 35 for bachelor's degrees, in Table 36 for first professional degrees, in Table 37 for master's degrees, and in Table 38 for doctor's degrees.

SECTION V

FACULTY

Statistical characteristics of faculty in North Carolina senior institutions of higher education are presented in this section.

Academic rank and highest earned degree of full-time faculty are given in Tables 39 and 41. Figures 9 and 10 depict the percent distribution among academic ranks over recent years and percent of faculty with doctor's degrees, respectively.

Table 40 contains data on the sex distribution of full-time faculty by academic rank and institution. Of 5,367 total faculty employed by the sixteen branches of The University of North Carolina (exclusive of Health Affairs at University of North Carolina at Chapel Hill), 1,210 were female (22.5 percent). At the private institutions 23.1 percent of all faculty was female.

SECTION VI

LIBRARY RESOURCES

This section concerns library resources and operating expenditures of North Carolina colleges and universities for fall 1973. A bound volume is defined, for statistical purposes, as a physical unit of any printed, typewritten, handwritten, mimeographed, or processed work contained in one binding or portfolio, hardbound or paperbound, which has been classified, catalogued, or otherwise prepared for use. This includes bound periodical volumes and all nonperiodical government documents.

Table 42 shows the number of bound volumes and other resources in the library of each institution. Numbers are given for the public and private senior colleges and universities, community colleges, private junior colleges, Bible colleges, and a seminary.

Table 43 shows the total library operating expenditures of each of the colleges and universities. Categories of expenditures also include salaries and wages, purchases of books and other printed materials, purchases of audiovisual and other nonprint materials, binding and rebinding, and other operating expenditures.

SECTION VII

EXTENSION ACTIVITIES

The extension activities of 13 public senior and 14 private senior institutions are described in this section. The public institutions include 13 campuses of The University of North Carolina: Appalachian, East Carolina, Fayetteville, N. C. A and T, N. C. State University, Pembroke, UNC-Asheville, Chapel Hill, Charlotte, Greensboro, Wilmington, Western Carolina and Winston-Salem. The 14 private institutions are Atlantic Christian, Campbell, Catawba, Duke, Elon, Gardner-Webb, Greensboro, Guilford, Lenoir Rhyne, Meredith, Pfeiffer, Queens, St. Augustine's, and Wake Forest.

Definitions for extension activities are those used by the U. S. Office of Education. These definitions are reprinted as Appendix B. For the purpose of this report extension activities are classified into three broad categories: 1) degree credit, 2) nondegree credit, and 3) noncredit extension.

Table 44 shows the number of student registrations in degree credit extension by field of study during the 1972-73 academic year. Table 45 gives information on nondegree credit extension (these courses may carry diploma and/or certificate credit). Table 46 presents information on noncredit extension activities such as conferences, institutes, and workshops.

SECTION VIII

STUDENT COSTS

Basic student costs at all North Carolina colleges and universities for the 1973-74 academic year are described within this section. Costs are computed on an annual basis for full-time students for the regular academic year, excluding summer session(s).

Table 47 describes combined total tuition and required fees for all institutions for the 1969-70, 1970-71, 1971-72, 1972-73, and 1973-74 academic years. Public senior colleges and universities decreased in-state tuition and required fees by 1.9 percent and out-of-state by 1.1 percent over the previous year, while private senior institutions showed a 4.6 percent in-state increase and a 4.3 percent out-of-state increase.

Table 48 shows tuition, required fees, room, and board by institution. Ranges of tuition and required fees at various types of institutions are shown in Figure 11. A detailed listing of fees is shown in Table 49. Fees for first professional and graduate programs are presented in Tables 50 and 51, respectively.

The total cost of attending college includes travel and personal expenditures in addition to the costs reported in Table 48. Beyond these costs, students also give up the opportunity to be fully employed when they attend school on a full-time basis. The income which students forego while in school is included by many writers as an indirect component of the total costs.

NOTE: Dotted lines represent averages.
*Excludes seminary and Bible colleges.

SECTION IX

ADMISSIONS

This section presents information concerning the academic abilitv of entering freshmen (as measured by standardized tests), and the number of applications, acceptances, and enrollees at public senior institutions.

Table 52 shows the average Scholastic Aptitude Test (SAT) scores of entering freshmen from 1963 to 1973. The average score for 1973 has in general decreased slightly from the preceding year (see Figure 12). Institutional combined averages (verbal and math) of SAT scores ranged from 635 to 1,104 in fall 1973. The frequency distribution of SAT scores by institution is given in Table 53.

Table 54 shows the high school class rank of entering freshmen in fall 1973. The percentage of entering freshmen ranking in the top fourth or fifth of their high school class ranged from 86 percent at one institution to 6 percent at another institution.

Figure 13 and Table 55 show the number of freshman applications, acceptances, and enrollees. It is assumed that total applications is an overestimate of total applicants, given the likelihood of applicants applying to more than one school. Tables 56 and 57 give the same information for transfer students and graduate students, respectively.

SECTION X

STUDENT FINANCIAL AID

This section presents information concerning financial aid to students at public senior, community colleges, private senior, and private junior colleges and universities in North Carolina. It includes 1) undergraduate college work-study and other employment expenditures of all institutions in North Carolina (see Table 58); 2) student aid expenditures for professional students (dentistry, medicine, law) at public as well as private institutions (see Table 61); and 3) student aid expenditures for graduate students at public and private institutions (see Table 62).

Table 59 shows a breakdown of athletic and nonathletic scholarships awarded during the fiscal year 1972-73 for both public and private institutions. Students on athletic scholarships at public senior institutions received an average of $1,085 per student, whereas those on nonathletic scholarships received about $422 per student.

Table 60 lists loans made to undergraduate students. Nearly $16 million in loans were made to students during fiscal year 1972-73, for an average of $616 per recipient.

Not included in this section are sources of assistance such as Social Security, G.I. Bill benefits, and other programs which are funded and administered by agencies other than the institution itself.

SECTION XI

STUDENT HOUSING

Pertinent information on student housing in public senior institutions in North Carolina is contained in this section.

General trends in dormitory facilities and their utilization are shown in Figure 14 and Table 63. Scrutiny of the data shows that occupancy was below normal capacity for fall 1973. The percent of total enrollment residing in dormitories has continued to decline, a trend that has been noted since 1960. The lowest level (42.0 percent) was reached in 1973.

Enrollment by type of student housing is shown in Table 64. Four of the 16 public senior institutions have a utilization percentage in excess of 99 percent while seven of these institutions have a utilization figure of less than 95 percent. Percentage occupancy for all public senior institutions combined has decreased from 96.1 in 1972 to 95.8 percent in 1973.

SECTION XII

FINANCIAL STATISTICS

Financial data pertaining to public and private institutions in North Carolina are presented within this section. The time period for this data is the 1972-73 fiscal year, ending June 30, 1973. The ending date varies somewhat among private institutions, and this may create some inconsistencies if these data were compared with other financial reports.

Table 65 presents current funds revenue during the 1972-73 fiscal year as reported by the individual institutions. Total revenue from all sources increased by 2.5 percent for public senior institutions, from $367 million in 1971-72 to $376 million in 1972-73.

Tuition and fees in private senior institutions accounted for 27.2 percent of total current funds revenue. Only 12.1 percent of total current funds revenue came from tuition and fees in public senior institutions for the 1972-73 fiscal year.

Table 66 shows current funds expenditures during the 1972-73 fiscal year as reported by the individual institutions. The expenditures include such items as instruction and departmental research, sponsored research, extension and public service, libraries, physical plant maintenance and operation, student aid grants, and auxiliary enterprises.

DEFINITIONS OF TERMS

The definitions below are intended to facilitate the better understanding of information presented in this report. These are selected from The University of North Carolina's reporting forms and the U. S. Office of Education's Higher Education General Information Survey forms.

1. ENROLLMENT, unless otherwise noted, refers to the headcount resident-credit enrollment. The resident-credit enrollment includes full-time and part-time students enrolled in courses basic to or creditable to a bachelor's or higher degree. This excludes students in extension, correspondence, adult education, audited courses, short courses, and those enrolled for individual lessons only.

   Undergraduate includes students who have not completed a full four-year program or its equivalent and also students in a five-year bachelor's program. This classification includes students in junior and community colleges in programs transferable to four-year institutions.

   First Professional includes students who are in a professional school or program (law, medicine, dentistry, theology, etc.) which requires at least two or more academic years of previous college work for entrance.

   Graduate includes students who have attained at least one standard bachelor's degree or first professional degree and who are or might be candidates for a master's or doctor's degree.

   Entering Freshmen include new students who have no college credits prior to the immediately previous summer sessions.

   Special/Unclassified includes students who are not candidates for a degree diploma, certificate, or equivalent award, although taking courses in regular classes with other students. This category includes, for instance, students who cannot be classified by academic level.

   Full-Time Student includes students enrolled in credits equal to at least 75 percent of the normal full-time load. Normal full-time load is the number of credit hours required for graduation divided by the number of semesters or terms normally required for graduation.

   Part-Time Student includes students enrolled for less than 75 percent of the normal full-time load.

FTE (Full-Time Equivalent) of Part-Time Students

Undergraduates	Graduate Students
12 or more credit hours = 1	9 or more credit hours = 1
9 to 12 credit hours = 3/4	6 to 9 credit hours = 3/4
6 to 9 credit hours = 1/2	3 to 6 credit hours = 1/2
Less than 6 credit hours = 1/4	Less than 3 credit hours = 1/4

In-State Students are those whose legal residence, as determined by the institution, is North Carolina.

Out-of-State Students are those whose legal residence, as determined at the institution, is in a state other than North Carolina or in a foreign country.

2. TRANSFER refers to students transferring to North Carolina institutions who have college credits from other institutions in a previous regular session(s). A former student transferring back to his original institution after attendance at another institution is not classified as a transfer.

3. DEGREES in this report refer to earned degrees conferred (not honorary). Specifically the following degrees are included:

   Bachelor's Degree requires successful completion of at least four but not more than five years of academic work.

   First Professional Degree signifies the completion of the academic requirements for a selected profession, which is based on an educational program requiring at least two academic years of previous college work for entrance and which requires a total of at least six academic years of college work for completion. Examples of first professional degrees are the Doctor of Jurisprudence (J.D.) and Bachelor of Laws (LL.B.), Doctor of Dental Surgery (D.D.S.), and Doctor of Medicine (M.D.) degrees.

   Master's Degree is customarily granted upon successful completion of one (sometimes two) academic years of work beyond the bachelor's degree.

   Doctor's Degree includes such degrees as Doctor of Education, Doctor of Juridical Science (S.J.D.), Doctor of Public Health, and the Doctor of Philosophy in any field.

4. FACULTY refers to the professional personnel employed in colleges and universities who are primarily assigned to resident instruction and departmental or organized research. This does not include other professional personnel in library, auxiliary enterprises, and public service activities.

5. EXTENSION ACTIVITY is defined in this report as any on- or off-campus instructional, research application, or public service activity sponsored by the reporting institution which is in addition to the regular on-campus instructional and research activities provided for the regularly enrolled, on-campus, degree candidate.
